

**VOLTSTAR™**  
**HIVOLTGUARD**  
 — AVS5A

High Voltage

Spikes/Surges

Power-Back  
Surges

Basic  
Lightning

Nominal Voltage	230V
Current Rating	5Amps
Frequency	50/60Hz
Under-Voltage Disconnect	260V
Under-Voltage Reconnect	258V
Spike Protection	160J
Wait Time	30seconds

→ Protects against high voltage, brown-outs and voltage dips. These conditions are harmful to electrical and electronic equipments.

By disconnecting the power when it is bad, the Hivolt Guard safeguards against short term and long term damage to ensure higher efficiency from your appliances. 30 seconds start-up delay is built-in to ensure stability of the power supply.
